

Hello PCS Parents,

We are thrilled to announce that reading and math specialists will begin seeing their students in person on campus beginning **Thursday May 13**. With the guidance of the school's COVID Task Force, along with the [County's updated protocols](#) announced on April 28, the logistical coordination necessary to safely accommodate specialists and their students - and provide adequate space - is now in place. We know students and specialists alike are eager to conduct their lessons face to face, smiles safely masked, but eyes fixed on one another in person!

Please be aware that with the likelihood of vaccinations being available for children 12 and up sometime soon, you can expect to be asked to fill out a survey regarding vaccinating children. In preparation for the 2021-2022 school year, we will want to gauge your feelings about inoculating your students. We are so grateful for your collaboration throughout this year; your input, feedback, and suggestions are always welcome.

As of Thursday we will have close to 100 percent of our PCS community back in person, with the exceptions being a minimum number of faculty and students who remain remote for medical reasons. There has been a tremendous amount of work surrounding the scheduling of classes to safely accommodate your students. Please note that moving forward, the remote platforms we have in place will be reserved for students who are quarantined or for long-term medical issues. Unexpected absences not due to illness put too much of a strain on classroom instruction. Students can be provided with learning materials, but that instruction will be asynchronous.

Thank you again for your continued collaboration and support as we head into the home stretch of the school year.

All the best for a lovely weekend,

Judith and Jenn
